

**ROMAN CATHOLIC DIOCESE  
OF  
BURLINGTON**

**CATHOLIC CEMETERY  
RULES AND REGULATIONS**

*Fall 2015*

# Preamble

*As long as the Catholic Church has been present in the State of Vermont, its Catholic Cemeteries have provided for the safe, efficient and respectful interment of its deceased members through the operations and maintenance of the cemeteries. In the Mass and burial prayers, the church gives voice to her belief in the Christian doctrines of the resurrection of the body, the communion of Saints and life everlasting.*

*The following Rules and Regulations are established as part of the Church's commitment to respect the dignity of every human person and preserve and beautify the sacred resting places of the faithful. They are intended not as restraining, but rather as defining an orderly plan of operation, care, and maintenance, and are designed to ensure compliance with the practices of the Roman Catholic Church, the civil laws of the State of Vermont and federal government and the 1983 Code of Canon Law. If a conflict arises between the Rules and Regulations and civil or canon law, civil or canon law applies.*

*These Rules and Regulations and any amendments, alterations, and additions adopted by Cemetery Management or the Bishop of Burlington shall apply to all lots, all those who hold a license with burial rights for a lot, crypt in a mausoleum, or a niche in a columbarium, and all visitors to the Roman Catholic cemeteries. These Rules and Regulations do not cover every situation that may arise. In all matters not specifically covered by these Rules and Regulations, Cemetery Management reserves the right to establish rules and procedures to address the situation by using its best judgment which will be binding upon the lot or crypt holder, visitor, and all parties concerned.*

*Due to ever-changing conditions, Cemetery Management and the Bishop reserve the right to change, modify, and rescind these Rules and Regulations and to change all service charges. These changes, modifications, and rescissions automatically apply to all licenses for burial, whether the licenses were issued prior or subsequent to their adoption.*

*These Rules and Regulations are not considered to be all inclusive and are subject to change. They cover general areas and are supplemented by other operational instructions, the Order of Christian Funerals, existing civil and canon laws, and other instruments published by the Roman Catholic Diocese of Burlington.*

*The cemetery through its management reserves the right, without notice, to make temporary exception, suspensions or modifications of any of the Rules and Regulations, when in its judgment, the same appears advisable; and such temporary exceptions, suspensions, or modifications shall in no way be considered as affecting the general application of such Rules and Regulations.*

*In all matters not specifically covered by the Rules and Regulations, management reserves the right to do anything which in its judgment is deemed reasonable on the premises, and such determination shall be binding upon the license holder(s) and all parties concern. These Rules and Regulations are binding regardless of any and all changes in the license holder(s).*

*The cemetery through its management reserves the right at any time and from time to time to change, amend, alter, repeal, rescind, or add to these Rules and Regulations or any part thereof, or to adopt any new rules or regulation with respect to the cemetery or anything pertaining thereto. These Rules and Regulations are binding regardless of any and all changes in the individual license holder(s).*

*The statement of any cemetery employee shall not be binding upon management, except as such statement coincides with the document conveying the right of interment, entombment, or inurnment and with the Rules and Regulations.*

*In the event necessity requires, management may take appropriate steps to correct any obnoxious or improper condition.*

*Questions regarding any of the Rules and Regulations contained in this document should be directed to Cemetery Management.*

Catholic Cemeteries are intended for the interment of Catholics who have the right to Christian burial according to the rites of the Roman Catholic Church and the regulations of the Roman Catholic Diocese of Burlington. Cemeteries are designed for the interment, entombment, and inurnment of properly prepared human remains only. Catholic Cemeteries are sacred ground; therefore scattering of human cremated remains and burial of animals is not permitted. In addition to Baptized Catholics, non-Catholic spouses and family members of Catholics may be buried in a Roman Catholic cemetery. Management shall apply the rules of the Roman Catholic Church in determining whether or not a non-Catholic may be buried in a Catholic Cemetery.

## Admission to Cemetery Properties

Cemetery Management reserves the right to refuse admission to the cemetery of a person who is not there for the purpose of burying the dead, visiting a grave, or praying for the dead. All roads, entrances, and land within the confines of the cemetery are private property. At management's discretion, the cemetery may be closed without notice for inclement weather and/or if there are unsafe conditions.

## Arrangements for Interment/Entombment/Inurnment

Persons arranging for interments, entombments, or inurnments should visit the cemetery where management will aid them in the necessary arrangements.

Making arrangements relative to the opening of a burial space requires a signed interment, entombment, or inurnment order by the license holder or its agent and at least 48 hours advance notice (72 hours' notice in winter months if cemetery is open). Management shall have the right to request more time if needed to complete burial request. If a Funeral Director or other agent is representing the lot holder, the arrangements made with management are binding on said lot holder.

Management shall not be responsible for any order given by telephone, by anyone not following proper procedures or any mistake occurring from the lack of proper instructions as to the size of the casket or as to the particular grave or crypt or niche location where interment, entombment, or inurnment is to be made. Management reserves the right to charge a reasonable fee whenever additional labor costs result from such errors.

Management shall in no way be liable for any delay in the interment, entombment, or inurnment of the human remains where a protest has been made, or where the Rules and Regulations have not been followed, or where the Rules and Regulations shall forbid interment, entombment, or inurnment. Further, management reserves the right, under such circumstances, to have the human remains placed in a receiving vault (tomb) until full rights have been determined. Any protest shall be in writing and filed with the cemetery office.

## Interment/Entombment/Inurnment Procedures

All funerals shall be under the direction of Cemetery Management while they take place on cemetery grounds.

A signed burial request order by the license holder or an agent must be received by the cemetery office before any burial services can be performed.

All burial services shall be scheduled Monday through Friday between the hours of 8:00am and 2:30pm and on Saturday from 8:00am to 2:00pm with an additional fee being charged for Saturday. The management will make every effort to accommodate all burial requests and reserves the right to charge additional fees for overtime hours. The management reserves the right to designate the hour and manner in which interments, entombments, and inurnments will or will not be permitted. (There will be no burial services on Sundays, Holy Days, New Year's Day, Memorial Day, July 4<sup>th</sup>, Thanksgiving Day, Christmas Day, or any other day determined by the Bishop of the Diocese of Burlington, Diocesan Director of Cemeteries or Cemetery Management.)

A burial permit from the civil authority having jurisdiction or cremation certificate from a crematorium that performed the cremation must be presented to the Cemetery Management before any burial service can take place. Management is not responsible for obtaining said documentation, the accuracy of data contained on it, or for determining the identity of the person to be interred, entombed, or inurned.

Any casket or urn will not be opened in the cemetery without the expressed permission of the Cemetery Management, the consent of the legal representative of the deceased, or without a court order having jurisdiction.

For all ground burials, the remains must be placed in a concrete or other durable material container approved by Cemetery Management. For placement of cremated remains in a niche, they must be placed in a durable container (urn) approved by Cemetery Management.

All interments, entombments, and inurnments are subject to fees as set forth in the price guidelines fixed by Cemetery Management and must comply with all applicable local and state laws and regulations.

Only cemetery personnel and equipment, or those authorized by management, shall be used in performing interments, entombments, or inurnments.

Cemetery Management or personnel shall not be held responsible when performing their duties for damages or injuries resulting from defects in burial containers.

## Disinterment Procedures

Unless required by law or a court order, no disinterment or removal shall be allowed except with the written permission of:

- . Cemetery Management
- . The authorization of the license holder(s) and
- . The nearest of kin and the blood heir(s) of the deceased or their agent

All disinterments must comply with all applicable laws of the State of Vermont.

All documents shall be executed according to proper legal procedures.

Management reserves the right to designate the hour and manner in which disinterments will or will not be permitted.

Only cemetery personnel and equipment, or those authorized by management, shall be used in performing disinterments and removals.

Management shall exercise due care in making a disinterment and removal, but shall assume no liability for damage to any casket, urn, outer burial container, or memorial incurred in making the disinterment or removal.

Cemetery Management will provide the proper form to be used.

## Right to Correct Errors

Cemetery Management and personnel strives at all times to be accurate in describing and transferring rights and in conducting interments, entombments, inurnments, disinterments, removals and the placement of memorialization.

The Cemetery Management reserves, and shall have, the right to correct any and all errors that may be made when performing interments, entombments, inurnments, disinterments, removals and the placement of memorialization.

When a mistake has been made in selling burial rights (graves), management will transfer those rights to another location within the cemetery of equal value. Management will also notify the burial rights holder of the mistake and of the corrective action immediately. If the corrective action taken is not satisfactory to the purchaser, he/she may request a total refund of monies paid and the purchase will become null and void.

## Information for License Holders of Interment Rights

Persons arranging for interments should visit the cemetery office where management will assist them in making the burial arrangements.

All in-ground interments, casket or an urn, must be placed in an outer burial container made of concrete or other durable material approved by Cemetery Management. All entombments of caskets in crypts will be wrapped in a protective outer material and sealed with a sealant approved by management. All cremated remains placed in a niche will be placed in a suitable urn approved by Cemetery Management.

In the event of a death of the license holder(s), any and all privileges remaining shall pass to the family legal heirs or per written instructions of the license holder(s). Cemetery Management will follow the State of Vermont laws pertaining to rights of heirs. All rights of the holder and the heirs will be authorized with the use of an Interment Authorization Form (burial request order) for each interment right granted.

The use of the lot is for the license holder(s) or their relatives for interment only, and the right of interment granted therein is not transferable, for sale, or for profit. The interment rights in an unoccupied portion of a lot may only be resold to the cemetery at the price originally paid. A service fee may be deducted. The management is under no obligation to purchase a lot offered by the license holder(s).

It shall be the duty of the license holder(s) to notify the Cemetery Management of any change in his/her mailing address. Notice sent to a license holder(s) at the last address in management's records shall be considered sufficient legal notification.

PLANTING OF FLOWERS IN FRONT OF MEMORIALS WILL HAVE TO BE APPROVED BY CEMETERY MANAGEMENT.

NO PLANTING OF TREES OR SHRUBS OF ANY KIND WILL BE PERMITTED EXCEPT BY CEMETERY MANAGEMENT AND STAFF. ANY UNAUTHORIZED PLANTING WILL BE REMOVED AT THE LICENSE HOLDERS EXPENSE.

ALL ORNAMENTS, CURBING, TRINKETS, ETC. WILL NEED TO BE APPROVED BY CEMETERY MANAGEMENT. ANY UNAUTHORIZED ITEM WILL BE REMOVED BY MANAGEMENT.

Cemetery Management, their agents, and employees shall have perpetual right of way over and through all of said cemetery premises for landscaping and for the purpose of installing, maintaining, and operating pipe lines, conduits or drains for sprinklers, drainage, electric, or communication lines.

No right of interment is granted to any license holder(s) in any road, driveway, alleyway, or walkway within the cemetery. However, so long as management devotes to use a road, drive, alleyway, or walkway, license holder(s) shall have permission to use thereof for access purposes. (Note: Cemetery Management reserves the right to change and grant interments in any part of the cemetery at any time.)

## Multiple Interments/Inurnments

Cemetery Management reserves the right to permit or authorize the interment of more than one human remains in one grave, crypt or niche, provided there is enough space and cemetery guidelines for interment or inurnment are followed. A corresponding fee will be required, as determined by management as part of the stated cemetery charges. Where multiple interments or inurnments are

permitted on a burial site, when the grave is occupied, permission must also be sought from the next of kin of the deceased. Written permission from the next of kin of the deceased must be on file in the cemetery office before a multiple interment or inurnment can be made.

In order to ensure proper placement of the casket or urn in a situation involving multiple interments or inurnments, management must be notified of the possibility of multiple interment or inurnment before the person is buried.

Memorials for multiple interments must be made according to the cemetery guidelines.

## Right to Replat

Cemetery Management has the right, subject to applicable laws, to modify grave arrangements when in its judgment modification becomes necessary. Replatting includes the following activities:

- Re-survey, enlarge, diminish, replat, alter in shape or size, or otherwise change all or any portion of the cemetery.

In the event first above mentioned, all prior rights and obligations existing at the time of damaged shall continue in full force and effect; in the second event above mentioned, appropriate inurnment rights shall be provided in the new space in lieu of inurnment rights in the destroyed or damaged columbarium. Any request for extension of time will need the approval of the management.

Cemetery Management shall have the right to refuse human remains for temporary storage which presents a health or safety risk or if contradictory to the local Board of Health Rules and Regulations.

Cemetery Management shall have the right to order the removal from the receiving vault at once and inter any remains when the same are not in a state of good preservation, or when the condition of the body renders its interment necessary.

Under no circumstances shall a body be considered as interred or entombed when placed in a receiving vault. The management shall have to right to determine the schedule of fees for the use of the receiving vault.

## Green Burials

Green Burials are an evolving concept and a way of caring for the dead with minimal environmental impact without compromising the rites and practices of the Catholic Church. The practice of Green Burials has many interpretations and many definitions. Management reserves the right to incorporate Green Burial space into their cemetery.
